

Collecting hazardous waste

It is important to collect hazardous waste separately from household waste.
To do this, you have an orange box in which you can sort out your hazardous waste.
The box is called: Miljøkassen.

What can you put in Miljøkassen?

Small electronics

Chemicals and empty
chemical cans,
lighters, paints,
solvents, aerosols

Energy saving bulbs
in a bag

Batteries in a bag

Symbols:

Packaging with these hazard symbols must be placed
in Miljøkassen, even if they are empty.

Medicines and needles must NOT be placed in
Miljøkassen, but must be delivered to the pharmacy
